DESCRIBES YUCATAN RUINS.

Explorer Finds Stone Books in

Explorer Finds Stone Books in Homes of a Forgotten Race.

Edward H. Thompson, former United States Consul at Merida, Yucatan, in a communication to the National Geographic Society, describing Chichen Its, the home of a forgotten race, on the Peninsula of Yucatan, declares the American people should awaken to the fact that they have right at home architecture essentially American and ruined structures every whit as interesting and massive and possibly as old as those of other lands, who boast that Americans must come to them.

"Within these mysterious Americans that name are great books, with pages of stone, writ in characters that no man may yet read," he declares. "Are the mysteries they hold, the wonderful facts that certainly lies sealed and mute within them, hiden from us, loss lintersaling to Americans than are the tales of Egyptian dynasties, the rites of Druids, Roman campings, or Saxon raidings?" I think not.
